

Highgrowth Partners presents Migoa in the Forum of the EASY PROJECT

The Venture capital is part of the EASY PROJECT from last year

Barcelona, may 24th of 2007 - Highgrowth Partners, the venture capital and manager of the fund **FonsInnocat**, is participating in the EASY PROJECT from September 2006, along with 17 other venture capital entities from more than 10 different countries.

The EASY PROJECT is part of the INNO_ACTION initiative included in the European Union Sixth Framework program which involves different investors and venture capital companies such as **Highgrowth Partners** that invest in early stages of technology companies throughout Europe.

One of the objectives of this project is to promote international cross country investments. In order to achieve that, there are meetings and forums all over Europe to present the different investment opportunities. The first one was organized last April in Paris.

The second event of the EASY Project will be handled in Helsinki on June 5, 6 and 7. **Highgrowth Partners** will present the company MIGOA. Migoa.com offers the possibility to search for a house, car or job quickly and efficiently. They are different vertical solutions for its search engine capabilities and give the user results more accurate, easier and more useful, bringing together loads of listings from large and small local online sources. It also enables to search news, photos, and videos, including all kind of topic search, making the most completed integrated search engine.

By participating in the EASY Project, MIGOA has an excellent opportunity to present their solutions to international investors and make possible its international growth. Moreover, **Highgrowth Partners** has invited to the Helsinki forum to different venture capital and Spanish business angels in order to make possible the relationship with their European partners. The company is planning to organize the next EASY event in Barcelona during next year.

About Highgrowth Partners – www.highgrowth.net

Highgrowth Partners is an independent financial company which, by means of two clearly differentiated lines of business, invests in innovative companies with growth potential, and offers the support, advice and guidance. Founded in 2001, has presence in Barcelona, Madrid and Bilbao.

Currently it operates the fund named FonsInnocat, which is independent and generic. Highgrowth Partners has invested in Teytel, Archivel Farma, Futurlink, Baolab and Solostocks.

Complementing the company's venture capital activity, Highgrowth also places its experience in finance at the disposal of its clients, providing advice on key matters such as the purchase and sale of companies, feasibility studies for investment projects, diagnosis of the most suitable financial structures, design and management of financing schemes for investment projects, etc.

About Migoa – www.migoa.com

migoa.com is part of Goa Internet Services, a leading Internet company based in Barcelona, Spain. Founded by Gary Stewart and Oriol Blasco, the team has employees from 11 different countries.

migoa offers the possibility to search for a house, car or job quickly and efficiently, something that not very many other websites can promise.

In 2006, the company was selected by Guidewire Group as one of the 35 most innovative information technology companies in Europe. More recently, it has been selected in March 2007 as one of the 100 winners of Red Herring Venture Market Europe, given to the 100 most promising European companies in the technology sector. Among the winners of this recognised prize are companies such as Google, eBay and Skype.
